Professional Summary

Computer Science and Engineering (Data Science) undergraduate with hands-on experience building web applications and AI tools. Skilled in Java, with internship experience in Java full-stack development and SAP ABAP. Familiar with web application development, testing and debugging. Built four applications, including an NLP tool that reduced document processing time by approximately 40%.

Education

B.Tech, CSE**(Data Science)** ,MLRITM with CGPA: 8.75 — 2023-2027

Intermediate, David Memorial Junior College with CGPA:8.8 — 2021 – 2023

Class X, The Mother's Integral School with CGPA: 9.8 — 2010 – 2020

Internships

Java Full Stack Development Virtual Intern — Aug 2026 – Oct 2026

EduSkills Academy | AICTE–EduSkills Virtual Internship

- Completed an eight-week Java Full Stack Development with project virtual internship.
- Completed the programme with an Outstanding (O) grade.

Devcon Associate – Naxrita — Aug 2026 – Sep 2026

SAP ABAP Development Internship

- Built ABAP RESTful Application Programming Model (RAP) applications in ADT/Eclipse, covering behavior definitions and business object modeling.
- Created CDS views for data modeling aligned with SAP Clean Core principles for S/4HANA extensibility.

Projects

Eco Sync - Carbon Footprint Tracking Platform — Feb 2026 - Jun 2026

- Problem: Lack of intuitive digital tools for individuals to effectively track their carbon footprint.
- Solution: Built a full-stack synchronization platform integrating geolocation for sustainable living, following agile development cycles.

Document Analyzer - AI-Powered NLP Parsing Tool — Dec 2025 – Jan 2026

- Problem: Manual extraction of key information from large datasets is highly inefficient and error-prone.
- Solution: Engineered and tested an AI-powered parsing tool utilizing NLP models for automated summarization.

Style AI - Generative AI Fashion Recommendation Platform — Jan 2026 – Feb 2026

- Problem: Shoppers struggle to find fashion recommendations tailored strictly to their unique preferences.
- Solution: Created a generative AI platform providing highly personalized style and outfit suggestions.

Personal Portfolio - Developer Showcase Platform — Mar 2026 – Apr 2026

- Problem: Needed a centralized, high-quality hub to showcase expertise and detailed project case studies.
- Solution: Designed and developed a React portfolio featuring Framer Motion animations; deployed it on Vercel.

Technical Skills

Programming	Java
Web development	HTML, CSS, React, Node.js, Next.js, Tailwind CSS
AI and data	Generative AI applications, NLP, Power BI, Excel
Database knowledge	MongoDB
Tools and platforms	Git, GitHub, VS Code, Vercel (portfolio hosting)

Certificates

- SAP Certified - Back-End Developer - ABAP Cloud | SAP | Sep 2026
- AWS Academy Graduate - Cloud Foundations | Training Badge | Aug 2026
- AWS Academy Graduate - Machine Learning for Natural Language Processing | Training Badge | Oct 2026
- Fundamentals of Accelerated Data Science | NVIDIA | Certificate of Competency
- Unity Certified Associate - Game Developer | Unity | 2026
- MePro Level 7 | Pearson | Completion Certificate | Dec 2025
